## Original FlashWear T-Qualizer 2007

After the amazing success of the T-Qualizer light up t-shirt, the world renowned clothing innovator, Flashwear, is proud to introduce our new designs for 2007! Flashwear has taken the "Classic" design as seen on the TV shows Ellen Degeneres and HGTV's "I Want That" and given it a modern edge. Taking inspiration from some of the most popular internet sites, the two new designs, TQChiller and TQRaver, are reflective of a more realistic graphic equalizer often seen on myspace.com and iTunes.

And by popular demand, Flashwear has introduced the TQStyle - a fun, flirty, feminine t-shirt made especially for women. This pink, fitted shirt features a contemporary heart design which incorporates the T-Qualizer bars in jewel tones of fuchsia, aqua, and royal blue.

As well as introducing the new designs, Flashwear has also incorporated a variety of general product improvements:

- New sensitivity controller feature now standard on all models
- Thicker, better quality material (100% cotton)
- Equalizer panels are now softer with rounded corners for extra wearability

Available in 4 designs - TQRaver, TQChiller, TQStyle & TQClassic (our most popular 2006 model) S, M, L, XL, XXL (TQStyle available in S, M, L only)

Powered by 4 AAA batteries (not included)

Available through Authorized Dealer:

**Software Hut**
